Subject: Blades private well screen interval information
Attachments: Updated 3_13_2018v3_Properties outside of Blades Town Limits but within AOI.xlsx; 3-2-18 Results table_w Screen Interval.xlsx

Hi Connor,

Attached are two tables that summarize some of the private well screen intervals for Blades.

The first table provides screen intervals (when available) from well completion reports for private wells outside of the Blades' town limits but within the area of interest (red line/ ~1/2 mile). Column H indicates well permit number, Column I indicates top of screen, and Column J indicates bottom of screen. Note, not all of these wells have been sampled.

The second table compares these screen intervals to results. Note, these aren't the most recent results.

As I mentioned on the phone, I haven't yet had a chance to review the well information collected during sampling. Let me know if you have any questions.

Thanks,
Steph
